World Peace & Constitution

But maybe they will also help us to wake up for [World Peace](#).

Perhaps, in their *hypocritical way of worrying about our health* and calling for *senseless* action, under threat of penalties, to fight a "pandemic" which is in actual fact a [plandemic](#), politicians will make us see where we really arrived at and what swamp we are actually in. To date there are no statistics that prove a pandemic.

They bring the German citizens finally to demand and produce real representatives of the people for a state that will in no way produce a repetition of our own recent history. A state in which the honest and hardworking citizen has rights and each individual is free to rise to higher levels and the virtues and spiritual values have a highest priorities again.

A state that is based on its *own* constitution, which gives people back their *inalienable rights* and is based on the following agreed principles.

FOUNDATION FOR A GERMAN CONSTITUTION

We, the global citizens resident in Germany, are of the opinion and firmly believe:

That all men of whatever race, color or creed were created with equal rights.

That all men have *inalienable* rights to their *own* lives.

That all men have *inalienable* rights to their sanity.

That all men have *inalienable* rights to their *own* defense.

That all men have *inalienable* rights to their *own* religious practices and their performance.

That all men have *inalienable* rights to conceive, choose, assist and support their own organizations, churches and governments.

That all men have *inalienable* rights to think freely, to talk freely, to write freely their own opinions and to counter or utter or write upon the opinions of others.

That all men have *inalienable* rights to the creation of their *own* kind.

That the souls of men have the rights of men.

That the study of the mind and the healing of mentally caused ills should not be alienated from religion or condoned in non- religious fields.

And that no agency less than God has the power to suspend or set aside these rights, overtly or covertly.

And we, the world citizens resident in Germany, hold the view:

That man is basically good

That he is seeking to survive

That his survival depends upon himself and upon his fellows and his attainment of brotherhood with the Universe

And further we believe that the laws of God forbid man:

To destroy his own kind

To destroy the sanity of another

To destroy or enslave another's soul

To destroy or reduce the survival of one's companions or one's group.

And we are believing that the spirit can be saved and that the spirit *alone* may
save or heal the body.
